

FOREWORD

To assist you in your service activities, this manual explains the main characteristics of the model J2 series (J200, J210 and J211), in particular providing a technical explanation of the construction and operation of new mechanisms and new technology used.

All information used in this technical information was in effect at time when the technical information was printed. However, the specifications and procedures may be revised owing to continuing improvements in design without advance notice and without incurring any obligation to us.
