

## COOLING SYSTEM OUTLINE [LF]

---

B3E011201008T02

### Features

Improved reliability	• Degassing type coolant reserve tank adopted
Reduced weight	• Cross flow type radiator with aluminum core and plastic tank adopted • Stainless steel thermostat with plastic thermostat cover adopted
Miniaturization	• Built-in type water pump adopted
Reduced engine noise and vibration	• Cooling fan motor component consists of the cooling fan motor and fan control module adopted
