

## THROTTLE BODY CONSTRUCTION [ZJ, Z6]

---

B3E011313640T01

- Consists of the throttle position sensor, IAC valve, throttle valve, and air adjusting screw.
- Installed on the engine coolant passage to prevent freezing of the throttle valve.

|   |                          |
|---|--------------------------|
| 1 | IAC valve                |
| 2 | Throttle valve           |
| 3 | Throttle position sensor |
| 4 | Air adjusting screw      |
| 5 | Engine coolant passage   |
