

EMISSION SYSTEM OUTLINE [ZJ, Z6, LF]

B3E011600116T01

Feature

Improved exhaust gas purification	<ul style="list-style-type: none">• Exhaust gas recirculation (EGR) system adopted• Catalytic converter system adopted
-----------------------------------	---

Specification

Item	ZJ, Z6	LF
EGR type	Stepping motor	
Catalyst form	WU-TWC (monolith)	WU-TWC (monolith) TWC (monolith)
Evaporative emission (EVAP) control system	Charcoal canister type	
Positive crankcase ventilation (PCV) system	Closed type
